+91 9944786042 | prashith3@gmail.com | github.com/Prashith05 | Bengaluru, Karnataka, India.

PROFILE

Python Developer with hands-on experience building scalable web applications using Python, Django, Django REST Framework, REST APIs, and MySQL. Experienced in developing backend features, implementing authentication, CRUD operations, debugging applications, and maintaining database integrity. Familiar with Git, Linux, AWS, and building responsive web applications. Passionate about learning new technologies and contributing to product development.

EDUCATION

Bachelor of Engineering-Robotics and Automation 2021 – 2025 | CGPA: 8.09
Dhanalakshmi Srinivasan Engineering College, Anna University

Higher Secondary Certificate (HSC) 2021 | Percentage: 87.5%
Bharathi Vidya Mandir Matric Hr Sec School, Theni (State Board)

Secondary School Leaving Certificate (SSLC) 2019 | Percentage: 84.2%
Bharathi Vidya Mandir Matric Hr Sec School, Theni (State Board)

CERTIFICATIONS

- **Python Full Stack Development** – Pyspider
- **Front-end Development** – Alpha fly

SKILLS

Backend: Python, Django, REST API Development
Frontend: HTML, CSS, JavaScript, React.js, Bootstrap5
Database: MySQL, SQL
Tools & Platforms: Git & GitHub, Linux, Shell Scripting, AWS, PuTTY

INTERNSHIP & TRAINING

1. Python Full Stack Development Training | Pyspider, Bengaluru | Jun 2025 – Apr 2026
Completed hands-on training in **Python full-stack development** with experience in **Python, Django, HTML, CSS, JavaScript, and SQL**. Developed dynamic web applications through real-time projects involving database integration, CRUD operations, and REST API development. Enhanced debugging, problem-solving, and software development skills while building front-end and back-end solutions.

2. Front-End Development Training | Alpha Fly, Theni, Tamil Nadu | Mar 2025 – Apr 2025
Completed hands-on training in **front-end development** with experience in **HTML, CSS, JavaScript, and React.js**. Designed and developed responsive web interfaces, implemented dynamic UI components, and applied clean coding and debugging practices to build efficient web solutions.

PROJECTS

Bus Ticket Booking Web Application | Python, Django, MySQL, React.js, REST API
Developed a full-stack bus ticket booking platform to enable online reservations, seat availability tracking, and booking management. Designed RESTful APIs for schedules, authentication, and bookings, and built a responsive React.js interface with Django backend integration for secure data handling and efficient database operations.

Django-Based Employee Management Application | Python, Django, MySQL
Developed a Django-based employee management system with custom CRUD functionality for managing employee records and workflows. Implemented Django authentication for secure admin access and utilized ORM for efficient handling of employee, role, and performance-related data relationships.
